	To share a room that another person has booked **						

*Reduced rate for anyone experiencing financial difficulties.

**For any booking of a lodge, double room or shared room, a separate registration is required for each person: a single person books the chosen accommodation. To add other people to that same accommodation, each additional person must complete a separate registration under *Shared room*, so that they are registered for the meals, indicating the name of the roommate who booked the accommodation. To split the cost between people, you can add up your respective registration baskets and divide the total by the number of people (a lodge for 3 will therefore be cheaper than a single room).

All prices include the tourist tax (€0.22/night in camping, €0.55/night for a full-price dormitory bed, and 1.1% of the price for all other accommodation).

You may come at any time of year, outside the annual closure periods and events.
